**America Reimagined:
New Inter-Cultural Activation Strategies for a New America**

Intercultural Affinity Aggregation (ICA)

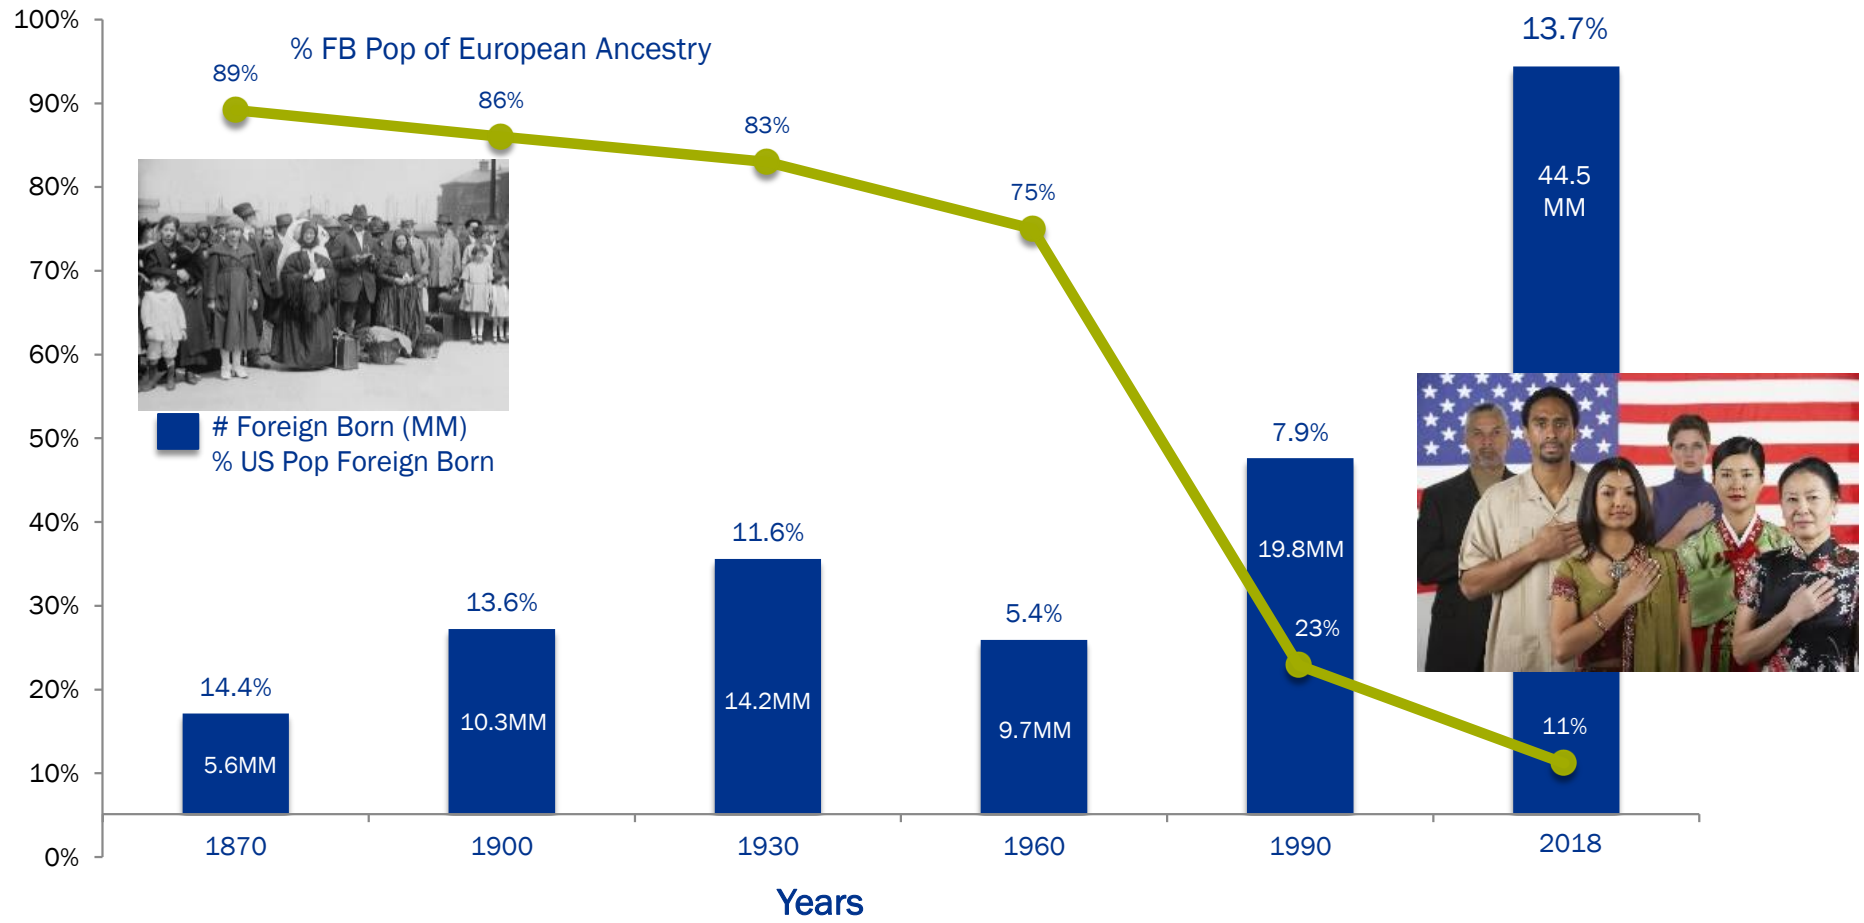

All Future U.S. Growth Will Come From Multiculturals

All future U.S. growth will come from the multicultural and blended population as the non-Hispanic white population declines

What is Driving the Shift in America?

Foreign Born population has quadrupled since 1960 while Countries of Origin have changed dramatically

Years of Effective Buying Power is Greater for Multiculturals

Because of the much younger age of Multicultural consumers and their generally longer life expectancies, the value to product and service providers is greater.

Multicultural Influence: The Blending of U.S. Households

Visualize America's 117 million households in three types

 UnBI NH White = Unblended NHW	All household members are non-Hispanic White	71 million (60.5%)
 UnBI MC = Unblended MC	All household members are of single Hispanic national origin or single non-White race	28 million (24.0%)
 BI = Blended	Household has mix of races, mix of Hispanic origins, Hispanic w/ non-Hispanic or US-born & foreign born	18 million (15.6%)

So, households in the New Mainstream look like

% Blended Households

And by population, the New Mainstream looks like

% Blended Population

The Blended Household Population by Generation

Population in Blended Households + MC Households now accounts for the majority (53%) of the under 50 American population

	<50	50+
% of Total US Population	66%	34%
UnBlended NHW Pop	47%	66%
UnBlended MC + Blended Pop	53%	34%

In 2019, a More Realistic Market View is Necessary as Multicultural Influence is Being Sharply Debated

In this new environment, it should not surprise marketers that consumers will react to Brand communications . . .

Faster – instant reaction to both real and hearsay samples of brand voices and advertising across all traditional and new channels

Louder and broader – individually and socially, more effective broadcasting of their personal voices on continually expanding channels

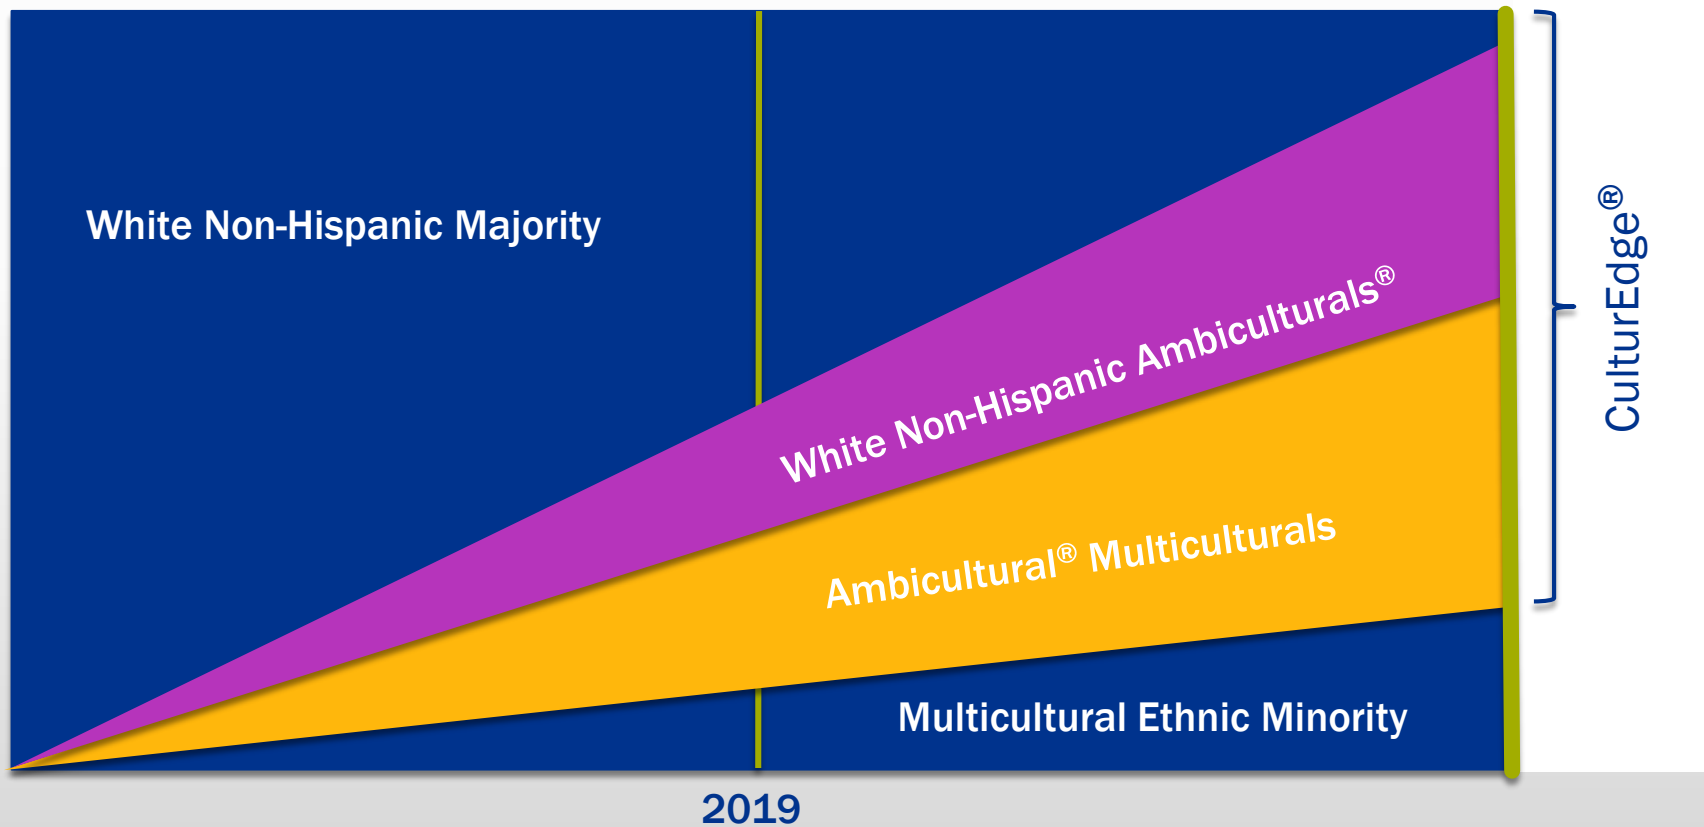

Angrier and more personal – with shorter fuses of toleration and patience that are more difficult to defuse and respond to

More collective and combative – assertive group identity that reinforces and spreads self-interest reactions and “us versus them” discourse

More likely to “walk their talk” – consumer actions and reactions will speak much louder than their words, with greater impact on purchasing

Clients need an approach that can serve as both a strategic planning and crisis management tool
